**Immediate Priorities:**

At Ward Members requests, we will continue with our ongoing projects around supporting vulnerable residents of all ages and also providing much needed mentoring where required to residents of different age and capacities through our Mums to Mums & Young Carers projects which will now expand to look at a young person's citizenship project.

We will also continue to deliver upon the revised priorities as agreed with NAG's and residents attending our conference whilst also ensuring partnerships continue to develop as part of the Local Integrated Service and alongside the Complex Families Project.
